hi!

Bio

ARTUR DZIEDZIC

I moved to US from Warsaw two years ago. In Poland, I had two parallel careers - as an agency creative and a freelance filmmaker. I started as an art director, then became a copywriter, before discovering that filmmaking was my real calling. 7 years ago I started my production studio where I directed, produced, and post-produced TV spots and music videos.

After moving to US I landed a job in Transition Studios in Cleveland where I work as a Film Director and Lead Cinematographer. I am also freelancing on projects including film productions and music videos.
